SECURE-X

PRESCRIBE.PRACTICE.CURE

HeiTech®

Provides leading-edge managed cyber security services solutions with the aim of helping clients achieve their digital transformation goals by unlocking value from the latest cyber security technologies.

" *Our unique Risk-driven MCSS services help bussinesses turn cyber threats into their competitive advantage.* "

Secure-X's suite of managed cyber security services consists of:

prescribePod

Tailored organization's cybersecurity design landscape and deploy according to the best practice and proven technology.

practisePod

Manage policies, controls, risks, assessments, and deficiencies across your entire business.

curePod

Intelligence-driven and people-enhanced SOC with Risk-Based Vulnerability Management (RBVM) to increase the protection from cyber security threats.

cyberKnowledgePod

Bridge your organization's cyber security skills gap with exclusive training courses, certifications and real-world exercises led by top experts in the field.

HABITUAL SECURITY

01 STRATEGIC MONITORING

ORCHESTRATION & OPTIMIZATION **02**

03 THREAT HUNTING

FORENSIC INVESTIGATION **04**

05 INCIDENT RESPONSE

THREAT INTELLIGENCE **06**

KEY FEATURES

- Shifting from Incident Response to Autonomous Response reduces time and human errors.

- Improvement towards the visibility of cyber security in terms of actionable prevention, detection, response and predictive capabilities.

- IT SecOps that supports continuous monitoring, hunting, response, remediate and recovery.

- Continuous manageability of vulnerabilities and cyber risks.

- Achieve lower Mean Time To Detect (MTTD), Mean Time To Analyse (MTTA) and Mean Time To Response (MTTR).

- Usage of up-to-date security technology enables innovation and expands business opportunities.
SECURE-X

ALWAYS PREPARED FOR CYBER THREATS WITH HABITUAL SECURITY

WHY CHOOSE SECURE-X

- **SECURE LOCATION**

  The physical location of our NexGen SOC is located in a protected area and place and declared as a Restricted Area or Prohibited Area by the Ministry of Home Affairs (KDN) and is also a TIA-942 Rated 3 Certified Data Centre.

- **OPSWARE**

  Round-the-clock, 24x7x365 proactive security monitoring with threat intelligence and real-time monitoring of all security incidents and a dedicated security team that is able to support the autonomous response cycle.

- **MINDWARE**

  Highly skilled and trained resources that are passionate in ensuring the health of our clients' enterprise immune system and maintaining efficient cyber security hygiene to prevent or reduce the impact of business risks.

- **TOOLWARE**

  An integrated 360-degree MSS SOC platform that consists of continuous risk-driven vulnerability management, advanced analytics with AI and Machine Learning capabilities, proactive detection of threats, integrated GRC management platform and an MDR platform that orchestrates and automates cyber security operations and response.
